

AI-05: Privacy and Responsible Use Checklist

1. Privacy Safeguards

- ☒ I did not upload any personally identifiable information (PII) of others, or confidential/proprietary data to any public AI tool.
- ☒ I masked/redacted sensitive credentials, personal API keys, and session cookies from any screenshots and code snippets uploaded.

2. Output Verification

- ☒ I verified every technical claim, fact, and line of code generated by AI against primary official sources (e.g., CVE database, official documentation, vendor post-mortems).
- ☒ I manually reviewed and tested all code/scripts generated by AI on my local system before declaring them complete.

3. Ethical Use and Academic Integrity

- ☒ I confirm that the final deliverables represent my own understanding, and I am fully prepared to defend and explain any portion of the work during oral defense.
 - ☒ I have disclosed all AI assistance used in this assignment in the [prompt log](#) and [disclosure sections](#).
-
